The WILT TRILOGY

Pronunciation guide

This pronunciation guide is by no means intended as 'you must pronounce it this way and no other way' as I realise many readers may have already came to their own conclusion as to how certain words or names should be pronounced and that is absolutely fine. For those that are curious about how I intended certain words to sound, especially because some are derived from words in Germanic and Nordic languages, I've compiled this list. Capitals indicate stressed syllables.
Please let me know if you find it incomplete and wish for (a) certain word(s) to be added.

* In addition to last names: traditionally Truenthan children are named after their mother's and the suffix -der [-d'r] is attached which is a derivative of the possessive 'hers' (of her). For example: Esben's mother is named Ann, so Esben is 'one of Ann' or 'Ann her child'; Annder. Ann her own mother's name was Ture [TÚ-ruh] so her last name is Tureder [TÚ-ruh-d'r]. As this last example shows, the suffix is never stressed; the stress always lies on one syllable in the mother's name.
